We'll Tweet helpful information throughout poison ivy, oak, and sumac season.

Do You Have An Epic Poison Ivy, Oak, Or Sumac Story?

If you have had an epic encounter with poison ivy, oak, or sumac, then we want to hear from you! Have you had the mother of all poison ivy rashes? Have you seen or done battle with a massive poison ivy plant which took over your yard or the outside of your house?

If so, please email your story to dboelman@zanafel.com. Emailing pictures associated with your story is a plus (especially "before & after" photos), but not required. PLEASE include your full contact information in your email. Please submit your story by May 31st, 2013.

Zanafel will send a special prize to one person who provides the best rash story and one person who provides the best "big" poison ivy, oak or sumac plant story.

Zanafel Sponsors the first ever Philadelphia Poison Ivy Conference

*Poison Ivy Conference Program.pdf

Zanfel Laboratories was proud to sponsor and attend the 2013 Philadelphia Poison Ivy Conference. The event took place March 25 – 28 in the Fairmount Park area of Philadelphia.

Attendees learned about identification of poison ivy, poison ivy plant removal techniques, new poison ivy plant terminology, new poison ivy plant research, and examined features of mature poison ivy plants growing in Philadelphia.

Zanfel wishes to thank Umar Mycka, Poison Ivy Horticulturalist, for producing a successful, one of a kind event where we discovered so much about the nature of poison ivy.
