Getting To Know Jackie

Introducing Jackie Stanley, Zanfel's Manager of Operations. Jackie's responsibilities at Zanfel include creating and updating many financial reports, as well as coordinating all marketing materials.

In her spare time, Jackie enjoys spending time with family and friends, golfing and taking their dog Max for many walks. She is a huge football fan as well. She enjoys cheering on the Iowa Hawkeyes and the Green Bay Packers in the fall.

Identifying Poison Sumac

Poison sumac (*Toxicodendron vernix*) is a large shrub or small tree, which grows in the eastern half of the US. Poison sumac has a compound leaf with 7 to 13 leaflets.

The Golf Course

A question for you golfers out there:

Q: If your golf shot lands in the middle of a poison ivy patch, is this considered a “dangerous situation” where the player may drop another ball in a safer area, without penalty?

Poison Ivy Prevention Tip

Clothing, tools, and pets’ fur can become contaminated with the poison ivy plant’s oil during outdoor activities. Unlike human skin, these surfaces do not absorb the oil.

Zanfel Fact

Did you know Zanfel has a 10-year shelf life? The expiration date is printed on the back of the product carton and on the crimp of each tube.
