

ZANFEL

FAST FACTS

- 1) **Zanfel is the ONLY product clinically shown to remove the toxin urushiol ANYTIME after outbreak.**
- 2) **Zanfel is very instruction specific. Be sure to read and follow ALL steps in the instructions, as listed below.**
 1. **Wet the affected area**
 2. **Use 1½ inches of product per dose**
 3. **Activate product with water for 10 seconds to create a paste**
 4. **Apply as a dermal wash for a full 3 minutes**
 5. **Rinse area thoroughly**
- 3) **For most mild to moderate cases, ONE application of Zanfel is all that is needed.**
- 4) **If the itch returns, rewash with Zanfel as per the directions. If the itch is gone, there is no need to reapply.**
- 5) **Once the toxin is removed from the skin, the body begins the healing process. The rash will begin to subside within hours if the reaction is mild to moderate.**
- 6) **Zanfel can be used in conjunction with steroids, especially for systemic reactions.**
- 7) **Safe for use by children and pregnant or nursing women.**
